

We're so close to having a new playground...but we need your support!

As you may know, both the English Montreal School Board and the Ministère de l'Éducation have each pledged to give Roslyn School \$25,000 towards the improvement of our playground including a new play structure. That's the **great** news! However in order to access the \$50,000, Roslyn School must also contribute \$25,000. So far, we have raised \$12,000, enough to begin Phase 1 of the Playground Improvement. But we need to **raise at least another \$13,000** in order to be able to continue with Phase 2, which is the construction of the new play structure, an outdoor amphitheatre, and painted games and illustrations on the asphalt.

Phase 1 encompasses the greening of the area beyond the stone wall in the north end of the school yard. Bushes, tall grasses, trees, ground cover and planting beds for use by classrooms will be in the ground before school begins in September. A stepping stone walkway will be added and will pass through the entire length of this area. **Here's your chance to support the construction of the new playground and leave a lasting mark!**

Donate to the playground improvement fund and we'll engrave your family's name on a stepping stone. Donate \$50 and your name will appear on the stone along with the names of three other families. Donate \$125 and your name will be engraved along with the name of one other family. Prefer a stone with just your family's name on it? Donate \$300 and the stepping stone will be engraved solely with your family's name. All donations will receive a tax receipt for the full amount donated. Please complete the form below and return it with your cheque payable to the Roslyn School Foundation. You can also donate on-line at www.roslynschoolfoundation.ca using a credit card.

We are confident that with your help, the funds raised through the stepping stones will ensure that we trigger the remaining monies pledged, thereby enabling us to build the new play structure in time for Roslyn's Centennial year (2008). Please send in your donation before the end of the school year.

Many thanks for your generous support!
